Magic xpa
Rich Internet
Samples Guide

The Rich Internet Samples project displays various Magic xpa program examples. You may take out any part of the sample for use in your own projects.

Prerequisites

To use the application, you need to have your Magic xpa configured for running a Rich Client program.

Running the Application

Before you run this application, set the Deployment mode of the engine (Options > Settings) to Background. Some of the programs are set to run under a new parallel context. Running parallel contexts from the Studio requires the Deployment mode to be Background.

To launch the application, simply run the Menu program or any program with a public name.

About Magic Software Enterprises

Magic Software Enterprises (NASDAQ: MGIC) empowers customers and partners around the globe with smarter technology that provides a multi-channel user experience of enterprise logic and data.

We draw on 30 years of experience, millions of installations worldwide, and strategic alliances with global IT leaders, including IBM, Microsoft, Oracle, Salesforce.com, and SAP, to enable our customers to seamlessly adopt new technologies and maximize business opportunities.
